

The Editor

Research Journal for Veterinary Practitioners

Subject: Research Paper for Publication

Dear Sir,

It gives me immense pleasure to submit our manuscript entitled “**Rehabilitation And Curing Of Domestic Pigeons exhibiting signs of Torticollis: A Case Report**”. The manuscript describes the rehabilitation and treatment of clinically ill pigeons exhibiting the signs of torticollis. The study describes Newcastle disease in pigeon, the role of various managemental and stress factors, vaccination in pigeons to prevent such infection besides rehabilitation and treatment of birds affected with torticollis.

It is stated that all authors have seen and approved this manuscript and this manuscript is not currently submitted for publication elsewhere.

Abstract: Word count. 170

Short Communication. 1973

We have tried to fulfill all the codal formalities required for submission of this short communication. I hope that this would be a useful article for the Veterinary practitioners around the world to treat such birds.

Kind regards,

Dr. Akbar Ali
