QOL NO: 9039

TO WHOM IT MAY CONCERN

I feel immense pleasure to write a recommendation letter for Mr. Muhammad Abbas who did his Doctor in Veterinary Medicine (DVM) from University of Veterinary & Animal Sciences, Lahore and MS in molecular biology from University of Skövde, Sweden.

Mr. Muhammad Abbas is known to me as a student as well as a colleague for the last 4 years. He has experience in number of molecular techniques such as PCR, sequencing, and cloning. Further, he has worked with viral infectious diseases and bioinformatics tools used in determining the phylogeny of isolates or clinical samples.

He is an organized and a reliable person and has the abilities to work independently. He has excellent written and verbal communication skills. I found him enthusiastic, perseverant, and diligent and highly dedicated young man who is inquisitive to achieve his objectives well in time.

I strongly recommend him for Licentiand in Virology in the research group of Mikael Berg.

A handwritten signature in blue ink, appearing to read 'Tahir Yaqub'.
