Dear Sir,

I have completed my MPhil Animal Breeding & Genetics Degree at Institute of University Of Veterinary & Animal Sciences, Lahore and I have submitted my final thesis. I have completed my BSc Hons Degree in Poultry Sciences from the same university.

The enclosed resume will highlight my educational achievements and showcase my dedication towards a good professional career. Professionally, I have a very small experience of working in public sector but my experience has made me learned that one needs a lot of hard work and dedication for public sector financial management. I have worked in some research projects as research associate in genetics molecular lab. My responsibilities as Research Associate were sampling, culturing and harvesting of cells, microscopy, karyotyping, DNA extraction, gel electrophoresis and PCR.

My Objective includes to be a part of Public Sector organization for challenging work environment in order to productively utilize my education of breeding & genetics where I can play my role as a change agent for the organizational development and To obtain a Mid-Level to Senior Level position in Public Sector organization where my passion and commitments for the national development of Pakistan are recognized and valued.

As a highly compassionate and approachable genetics Student I am confident in my ability to become a valuable candidate for the organization.

You can find my qualifications and skills in the enclosed resume. If you would like to have more information about my qualifications and skills, please contact me via e-mail.

I look forward to hearing from you.

Regards,
Muhammad Dawood
