OBJECTIVE

I am looking for a position, which will allow me to use my excellent organizational skills and where my educational background will be put to best use.

EDUCATION

□ Master of Science Information Technology (MSMIT)

Quaid-E-Azam University Islamabad

Projects

1st Semester:

Make a website using PHP on "Information Technology".

2nd Semester:

Make a database on SQL oracle 8i "Airline Ticket Reservation System".

3rd Semester:

Make a Scientific Calculator using Java (NetBeans).

Make a research report on Wireless Sensor Network System (WSN).

4th Semester:

Create a website on "NotJustBrowsing® Desktop" using Joomla.

You can access website using URL desktop.notjustbrowsing.org

Final Project:

As my final degree project I worked on to create a windows desktop environment that utilizes linear browsing technique. I have used C# (.Net) to develop this into an application. The resulting application is named "NotJustBrowsing® Desktop". Enhancements in the form of linear browsing are introduced into NotJustBrowsing® Desktop to make it reasonable/acceptable/attractive for public use. NotJustBrowsing® Desktop provides a similar look and feel as of Android/iPhone environment. It will be published around 20th April 2015.
