

To Whom It May Concern,

Please accept my submission to the journal *Science, Religion & Culture*, entitled “Technologizing the Soul, Spiritualizing Science: Neo-Kabbalists at Play in the Fields (and Waves and Particles) of the Lord.” I believe this article is particularly apropos for your journal, as it draws on my ethnographic research as a cultural anthropologist working among contemporary adherents to the Jewish mystical tradition in order to interrogate the boundaries of science and religion, raising important epistemological questions along the way. Thank you in advance for your kind consideration of my submission.

Best Regards,

Kevin D. Pittle, Ph.D.
