Dr. Gregg D. Caruso
Editor-in-Chief, *Science, Religion, and Culture*
Corning Community College
1 Academic Drive
Corning, NY 14830 USA

Dear Gregg:

Please find attached an original manuscript entitled "Community and an Ethos of Science" for review and possible publication in the on-line journal, *Science, Religion, and Culture*.

The manuscript represents a petition for unification of thought and practice across disciplines to help us deal sustainably with our complex, ever-burgeoning environmental issues such as human-accelerated climate change and biodepletion. It speaks to the heart of science, religion, and culture.

Warm regards and much success for the Spring!

Sincerely,

H. Bruce Rinker, Ph.D.
Director of Scientific Advancement and Development
