School of Life Sciences, Department of Biochemistry & Molecular Biology
North East Normal University Changchun, Jilin, PRC 008618504413136

P. hD (Continued)

(Biochemistry and
Molecular Biology) NENU,
Changchun, PRC

M. Sc (2012)

(Microbiology) Abasyn
University Peshawar,
Pakistan

B. Sc (2008)

(Botany, Chemistry,
Zoology) University of
Peshawar, Pakistan

F. Sc (2006)

(Botany, Chemistry,
Zoology) Board of
Intermediate and
Secondary Education,
Mardan, Pakistan

SSC (2004)

Science Subjects (Biology,
Chemistry, Physics,
Mathematics) Board of
Intermediate and
Secondary Education,
Marian, Pakistan

Objectives

To work in dynamic, challenging, dexterous & labor intensive environment where my qualification & professional growth can be suitable develop & to learn & grow more in the field of life sciences and other related organizations. I seek a challenging career that gives me a chance to prove my technical, intellectual and professional abilities, polishes my skills, and adds to my professional achievements.

- ❖ **Noor Bahadar**, Muhammad Kashif Rafiq, Muhammad Israr, Muzaffar Khan and Asra Ghulam, "Antibacterial Potentials of Banana Peel In Ethanolic and Water Extracts," *Online Journal of BioSciences and Informatics, Vol: 3, Issue 1, 2014, pp. 492-497*
- ❖ **Noor Bahadar**, Wajid Mahnaz, Sobia Jadoon, and Sofia Jadoon, "A Comparative Analysis of the Behaviors and Performance of Day Scholar and Boarder Students at Secondary School Level." American Journal of Educational Research, vol. 2, no. 8 (2014): 600-602. doi: 10.12691/education-2-8-7.
- ❖ Identification of Correlation between Real Time PCR Assay and ELISA on Hepatitis C Positive Serum Samples (Accepted by the journal).
- ❖ Investigation of the problems of the primary schools of the district Swabi (Under review)

COMPUTER SKILLS:

- ❖ DIT, one year course from BTE, Peshawar, KP
- ❖ Operating Systems: Win XP, Win 7, Win 8.1, Win 10, OS X 10
- ❖ MS Office 2013 and 2016, Power Point Presentation
- ❖ Internet browsing, Windows installation

LANGUAGES:

All the courses studied from School to University Level are being thought in English. the core medium for Lectures, Presentations, Group Discussions and all the Examinations was English.

Additionally Urdu is my National Language while Poshto is my Mother Language.

References are available upon desire.

Respected,

My name is Noor Bahadar. I am from Pakistan. I am an enthusiastic student who is completing P. hD degree at Northeast Normal University Changchun, Jilin, China and has completed master's degree from Abasyn University Peshawar, Pakistan. I believe that dedicating more than 18 years of my life for academic training and accomplishing a Secondary School Certificate in Science, Higher Secondary School Certificate in Science and a Master degree in life sciences (Microbiology) have made me developed strong scientific research and I strongly believe that I could become an effective researcher working in your research group. I respectfully submit this cover letter, for the upcoming positions of Post Doctorate Degree in your lab. I believe my knowledge and experience in science make me well qualified to meet the requirements for the interesting research work in your group.

After successfully completing my master's degree I obtained a scholarship for my P. hD degree at Northeast Normal University China. Since achieving higher education without a full financial support is difficult now-a-days, due to high tuition fee and admission fee. Subsequently to fulfill my dreams of higher education I started applying for scholarships and qualified for Fully funded Chinese Government Scholarship from 'CSC' China Scholarship Council for my P. hD degree here at Northeast Normal University, which is one of the top Universities in China and is very famous for the research in the field of biological sciences.

I joined the Institute of Biochemistry & Molecular Biology, Key Laboratory of Molecular studies, because I was interested in Molecular Biology. After joining of the respective lab, I started my research work. We are working on different aspects of the molecular basis of the living bodies. We are working on the extraction of polysaccharides from different plants, their purification and their applications in different aspects like anti-apoptosis, anti-tumors etc. we are also working on biotransformation. I learnt various techniques of Transformation,

Gel Electrophoresis, DNA Extraction, DNA purification, Cloning, Cell culture, SDS-PAGE, RT-PCR, ELISA, Spectrophotometry, Western Blotting etc.

I am determined because I want to make it. I am what makes me worthy of and will thrive upon the chance to succeed in life. My family isn't particularly wealthy and has constantly made education the major focus in our home. Getting me through high school has been a very rocky road, by trying to get me all the supplies and books I have needed. That's why I am determined to get into your University. Now I have to ensure keeping my grades up and applying for scholarships for higher studies.

Furthermore, I am patient, highly motivated, have great interpersonal skills and can work autonomously with initiative and discretion.

I welcome an opportunity to discuss further my research interests and aspirations with you. Thank you very much for your consideration.

Sincerely
Noor Bahadar
